

RENAULT TRUCKS TRAFIC

TAKE THE ROAD WITH RENAULT TRUCKS

Driving with Renault Trucks means choosing a partner committed to supporting you, whenever you need it.

It means being able to select the most effective and technical solution. It means being able to choose trucks that are functional, efficient and comfortable.

It also means choosing easy to use, tried and tested technologies that are right for your business.

It involves building a strong, warm and lasting partnership.

It means making the right choice.

→ PIONEERS SINCE 1894

Marius Berliet designed his first engine back in 1894. Louis Renault founded the Renault Frères company in 1898. With this heritage of excellence in the production of trucks in France, Renault Trucks is carrying on a long tradition of expertise and innovation that saw the appearance of the first electric truck in 1923 and the flat platform cab in 1990. We put businesses on the road to high performance. From 2.8 tonnes to 120 tonnes, Renault Trucks is the only truck manufacturer that offers an expansive range of vehicles that can support any business need.

→ COMMITTED TO THE FUTURE

We can provide the right transport solution at the right time with the right energy solution, with minimal environmental impact. Renault Trucks provides solutions to efficiently reduce pollution and CO₂ emissions: optimised diesel engines and biofuels, 100% electric trucks as well as a range of services promoting strong environmental performance.

→ RESPONSIBLE MANUFACTURER

As a member to the UN Global Compact, Renault Trucks is committed to reducing its impact on our climate and to using resources and conducting business in a responsible manner. Renault Trucks has had its social responsibility audited by the independent Ecovadis organisation, which has ranked it among the best performing companies in its sector.

THE TRAFIC RED EDITION - ONLY AT RENAULT TRUCKS

For more than 35 years, Renault Trucks has supported business by putting its heavy truck expertise at the service of professionals that drive commercial vehicles. Explore the Trafic Red EDITION, which puts the finishing touches to Renault Trucks' range of commercial vehicles.

A driver's cab designed to provide a good field of vision in built-up areas.

- 1 LARGE WINDSCREEN
- 2 LED HEADLAMPS
- 3 VARIETY OF CAB TRIMS
- 4 SUN SHADE WITH BLIND SPOT WARNING

WORK IN COMPLETE SAFETY

The Traffic Red EDITION works alongside you on each trip by using technology to enhance your safety.

Driver assistance technology and different braking systems protect people and cargo. Various items of equipment and accessories further enhance driver safety.

→ **ELECTRONIC STABILITY CONTROL - ESC**
This safety system allows the driver to maintain directional control and prevents the vehicle from overturning in dangerous situations.

→ **FRONT AND REAR RADAR**
Audible warning signals are emitted when an obstacle is detected.

→ **LANE DEPARTURE WARNING**
An audible warning signal alerts the driver of unintentional drifting from the vehicle's trajectory.

→ **EXTENDED GRIP**
Electronic management for all types of terrain (sand, snow, mud, etc.), is available as standard on both rear-wheel drive and front-wheel drive models.

→ **HILL START ASSIST**
The brakes are held for a few seconds after releasing the pedal to make hill starts easier.

→ **CROSSWIND ASSISTANCE**
This system helps the driver to stay in lane when experiencing crosswind.

→ **BLIND SPOT WARNING**
The driver is warned of hazards in the blind spot using a light signal in the wing mirrors.

→ **ADAPTIVE CRUISE CONTROL**
to help vehicles maintain a safe following distance and automatically adjusts the speed of the vehicle below the set one.

→ **ROAD SIGN DETECTION**
To recognise traffic signs and keeping the driver informed of speed limit changes and other important road information.
